780 Columbus Ave # 140 – Boston, MA 02120 – (917) 7102991 – contact.gable@gmail.com

Northeastern University

College of Computer and Information Science

GPA: 3.1

Candidate for a Bachelor of Science in Computer Science & Multimedia Studies (2009)

Related Coursework: Fundamentals of Computer Science, Symbolic Logic, Object-Oriented Design, Computer Organization, Systems & Networks, Theory of Computation

Stuyvesant High School

Regents Diploma (June 2004)

Known Programming Languages: PHP, SQL, HTML/CSS, XML, Javascript (Esp. AJAX), Perl, C++, Java, Assembly

Known Computer Systems: Unix, Windows (9x-XP), DOS, Solaris, OSX, Linux

Known Applications: Photoshop, Illustrator, Dreamweaver, Office, Eclipse, Netbeans, Dev C++, GCC, Kaffe, emacs, dpkg/rpm

Raina Solutions (Web Developer)

Winter 2007

www.rainasolutions.com

Turned existing designs into web pages, and created and implemented original designs based on client's needs

Co-operated with an international quality assurance team to debug, revise, and check for cross-browser compatibility in projects.

Harvard Graduate School of Design (Web Intern)

Jan – June 2006

www.gsd.harvard.edu

Helped edit & update 50,000 departmental web pages using Dreamweaver to maintain accessibility to non-IT editors

Debugged Perl scripts and used it to generate a RSS feed of upcoming Harvard events

Created a new PHP library that simplified creation of new webpages that needed to authenticate users via the Harvard PIN System

Ben Franklin Tercentenary (Lead Developer)

Mar 2006

www.autobiographyproject.org

Discussed original specification with client and improved both efficiency and usability

Created a web form for users to submit their autobiographies utilizing extensive Javascript

Created an administration gallery for a panel of judges to login and grade user submitted autobiographies.

The Book & The Cook (Lead Developer)

Feb 2006

www.thebookandthecook.com

Used a framework specified by the contractor to create a MySQL list of events and locations for a book tour

Davidville (Lead Developer)

Summer 2005

<http://newtoons.frederator.com>

Part of a two man team that designed and built a website for a Nickelodeon television show from the ground up

Designed, coded, implemented and deployed a PHP/MySQL backend featuring flexible authoring tools and support for various media

NUBiLAGA (Volunteer Co-Chair)

Fall 2004 – Summer 07

www.nubilaga.neu.edu

Held position of Webmaster for two years and completely overhauled website a second time to include an AJAX powered calendar

Designed flyers and advertisements for events and speakers such as Margaret Cho

Voted into position of Co-Chair and arranged weekly meetings as well as speakers and performers for campus events
